WASHINGTON

Week end Reading  
August 31 - September 4,

Tab

1. My memorandum on Cuba. *fish m 181*
2. An important conversation between the Secretary and Dobrynin on nuclear non-diffusion. This is not at a dead end, but it does raise questions about our NATO relations which I think we should talk about next week. *Washington*
3. A very informative report of the German discussion on Berlin which shows how the Germans have their own "battle line" politicians, and how Schroeder operates. *Berlin Mags.*
